EXPERIENCE

77Media, Indianapolis, IN — *Junior Developer*
December 2019 - July 2020

- Developed Push/Pull API feature using Angular, NodeJS, & SQL Server.
- Utilized Angular Material Design for user accessibility in UI/UX.
- Collaborated with remote team to maintain, test, and debug software.
- Met deadlines with code reviews, daily standups and 2-week sprints.

Pursuit, Queens, NY — *Full Stack Development Fellow*
September 2018 - August 2019

- Excelled at curriculum covering the latest technologies through team and individual projects, code reviews, and pair programming.
- Worked as a TA for the JavaScript workshop for 2019 candidates; gave in-person feedback to candidates and tracked progress with Greenhouse.

Hopkins Law Group, LLC, Queens, NY — *Paralegal*
May 2007 - August 2019

- Provided legal research and documentation using WestLaw software.
- Analyzed documents and Court decisions to draft opposing motions.
- Led meetings with clients to communicate civil laws and procedures.

Kaplan Test Prep, New York, NY — *Customer Care Associate*
December 2006 - May 2007

- Assisted customers in troubleshooting Kaplan courses and software.

John DeStefano for CT, New Haven, CT — *Field Coordinator*
May 2006 - November 2006

- Organized events for gubernatorial candidate to address voter issues.

PROJECTS

CookWithMe — toCookWithMe.com

- Worked on a 4-person team to create a voice assistance cooking app using ArtyomJS for speech recognition and React for user interface.

StyleBox — github.com/nicolehopkins/StyleBox | github.com/nicolehopkins/StyleBoxBackEnd

- Created an eCommerce web app using PostgreSQL, Express, and React
